

# KOMATSU

Work smarter, not harder by  
automating the collection  
of job site data

**Smart Construction  
Field**

## Get real-time insights straight from the field

Say goodbye to pen and paper. Leverage a mobile-first connected system that lets you easily enter and track your costs and production. With Smart Construction Field you can record job site activity and analyze your operational efficiencies in near real-time. Smart Construction Field works with Bluetooth Low Energy devices to track machine hours for your entire fleet regardless of equipment brand, while geo-fencing technology tracks employee hours for your crew.

Success on a job site comes down to a simple question: did we hit our targets today? Tracking the cost of labor, machines and materials is the key to answering it.

With the Smart Construction Field app, you'll use accurate numbers to track your spending, and be able to analyze that data more quickly. You may find it the most cost-effective way to bid, manage and resource your projects.

### Stay on top of your job's progress

- Get clearer, more accurate job site data
- Easily track and analyze daily spending
- Monitor daily job site activity
- Track fuel use by machine
- Make better-informed business decisions

### Generate reporting and insights

Create daily reports to review all activity and information collected on the job site. Get a complete picture of what was accomplished each month and see daily weather and task progress broken down by manpower, machines and materials.

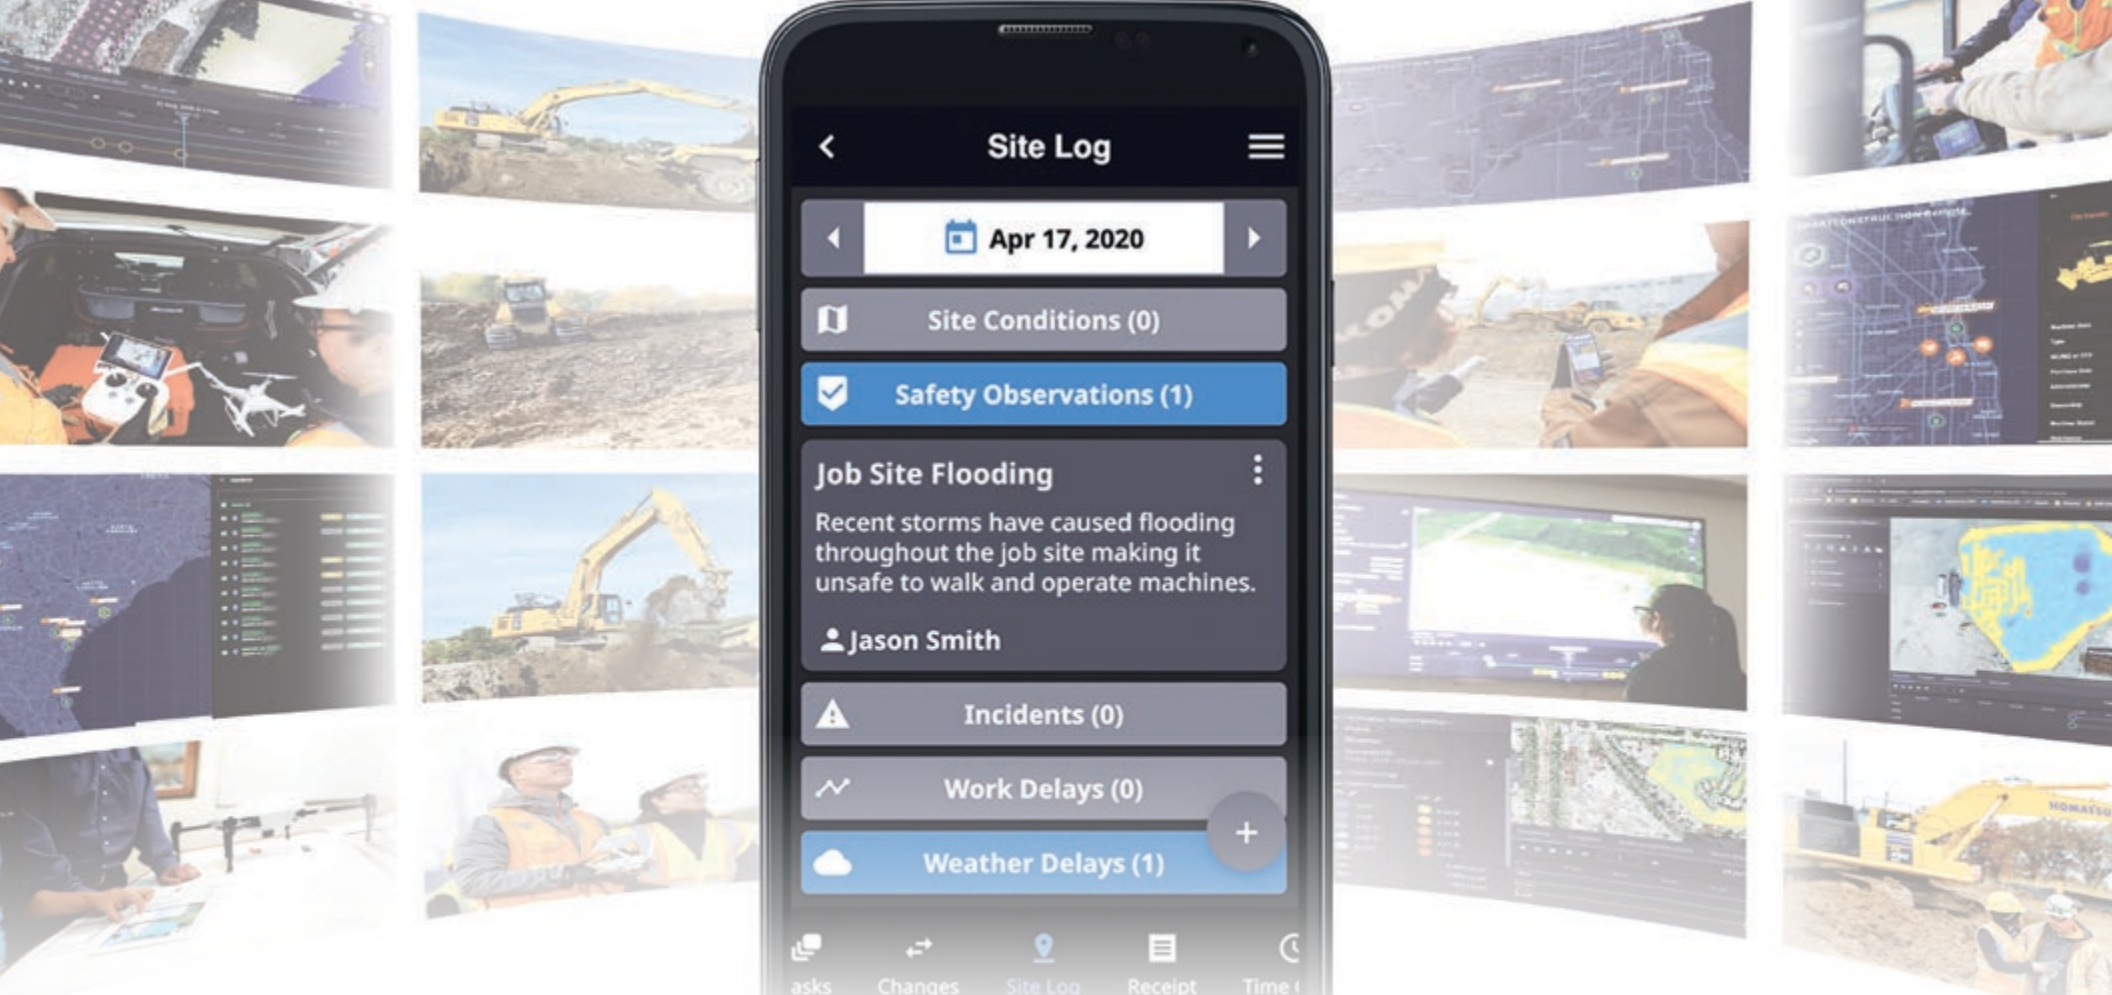

### See a connected view of your job site

Automate the collection of all job site activity to more accurately manage the costs that arise each day. Smart Construction Field works with your entire fleet to collect machine data, regardless of the brand of equipment.

Available to download at Google Play and Apple Store, the Smart Construction Field app enables you to use accurate numbers to track spending and analyze that data more quickly, making it a cost-effective way to monitor and manage your project's resources.

No matter where you are on your technology journey, our Technology Solutions Experts can help guide and support you.
